

Table 2-5

Monoclonal Antibodies Used to Identify Myosin Heavy Chain Isoforms in Rat Skeletal Muscle

Antibody	Fiber Type Labeled
SC75	All types but type 1
BAD5	Type 1 fibers
BF32	Types 1 and 2A
BFF3	Type 2B fibers
BF35	All types except type 2X
RTD9	Types 2X and 2B
SC71	Type 2A
