You know MONDAY section missed the EKG lab due to the holiday. So later in the semester Monday labs meet on the week of Thanksgiving, but the Wednesday and Friday lab will not meet that week. So, Monday labs can make up the EKG lab during that week in November. It will be too rushed to complete both labs in one day (the ventral nerve cord and the EKG).

So this coming Monday, the labs will all be the same for all sections throughout the week. That is WEEK 3 lab. The ventral nerve cord lab.
