

Paw & Jensen

January 6, 1970

Dear Bob:

I should give special mention and credit to Ralph Weaver who was primarily responsible for writing the basic report for consideration by the Committee. There must be a special place in Heaven or Hell for a man like Buck who tirelessly struggles year after year on the rules and regulations which are so important for us all, yet so difficult to keep updated and put through the proper channels.

Sincerely,

Geraldson's Office
