Dr.
Chancellor,

Dear Chancellor

I have now reviewed the complete dossier _____ who is being proposed for appointment at the level of Professor, with tenure, in the Regular Title Series of the Department of _____

_____ impressive across the academic spectrum. While a faculty member at _____ he was a productive researcher in terms of published scholarship and intellectual discoveries. He was an awarding-winning teacher, successful with undergraduates and consistently a high-impact mentor of graduate students. His service, as a scientifically inspired entrepreneur, visionary for higher education, and spokesman _____ are unparalleled.

_____ would his credentials merit a tenured appointment at the level of Professor? In my sights, they would, and without any doubt. His accomplishments in science, teaching, and the growth of intellectual capital are of a magnitude that few could equal. He is a distinguished appointment.

Best regards.

Dean
