

Hi class,

Some help to work out the worksheet and understanding the Nernst Eq

We will go over this on Tues. (2/23/2016)

Also at end of class we will email everyone a TAKE HOME MIDTERM exam

Work on the answers any way possible but Cole and I will not answer questions.

The goal is to learn how to solve problems that you might get in the real world of research.

Mid term to be handed or emailed in (March 1, 2016) at start of class (Tuesday).

We will go over answers in class.

13 undergrads 3 grads

so 16 strips of names to be called on but I put the grad students name in twice

so 19 strips.

Please see the attached files to help with general understanding of Nernst eq.

and the worksheet data sheets you are to email Cole.

Accordingly grad students (Dlovan, Nadera, & Sarah) can email me worksheets and

midterm exams (RLCOOP1@uky.edu or robinlewiscooper1@gmail.com).

-Robin
